What perception of your web site do you want your various user categories to have?

User category	Perception
#1	
#2	
#3	
#4	
#5	

What do your target users care about?  
What is most important to them, why are they visiting your web site, etc.?

What do you hope users think or feel about the design of your site?

Is your organization the only one offering these services and/or tasks?  
If not, how will you differentiate yourself from the competition?
